

One-on-One Advanced Coaching

Two-Year Personalized Development | ABC Level 2 Supervision for Certification

More than certification requirements. This program provides direct, personalized access to an experienced biblical counsellor and ministry leader. Alongside the full ABC Level 2 supervision requirements, students receive intentional formation in the counselling cycle flow, session structure, clinical note-taking, and curated resource guidance drawn from front-line counselling care, church-based ministry leadership, and national counselling centre oversight.

PROGRAM OVERVIEW

GCC One-on-One Advanced Coaching and Supervision is a two-year program for ABC Level 2 students who want more than the minimum requirements satisfied, providing direct and undivided access to their supervisor in every session. The program follows the ABC Level 2 phase structure, with Phase 1 and Phase 2 targeted for Year 1 and Phase 3 into Year 2, conducted fully online and managed through Google Classroom.

A NOTE FROM YOUR SUPERVISOR

You are considering an investment in your counsellor training that will last well beyond the program itself. I am genuinely looking forward to partnering with you toward real counselling goals and the practical skills that make faithful care possible. We will work through the uncertainty that almost every counsellor carries: the quiet question of whether you are equipped enough, ready enough, or capable enough to sit with someone in their pain. That question is worth sitting with, and it is part of what the coaching is for. I will walk with you toward that confidence and toward faithful completion of ABC Level 2. Email training@gospelcare.ca to arrange a free one-on-one Zoom consultation with me directly.
